

SPORT SAND

Pure and selected silica sand for blocking and filling artificial grass

SPORT SAND

Edition: February 2018 © Vimark

PRODUCT DESCRIPTION

SABBIA SPORT is a pure and selected natural silica aggregate, specific for blocking and filling artificial turf surfaces. Specifically designed for all types of sports fields made with artificial turf. Its natural round shape makes it easy to distribute, limiting wear to the base of the synthetic fibres, therefore increasing the durability of the turf. The washing, drying and sieving of the sand gives the product a constant grain size: 0.2 ÷ 0.8 mm

COMPOSITION

SABBIA SPORT Pure silica sand from a national quarry, washed, dried and grain size selected.
